1. Extension detail layout:

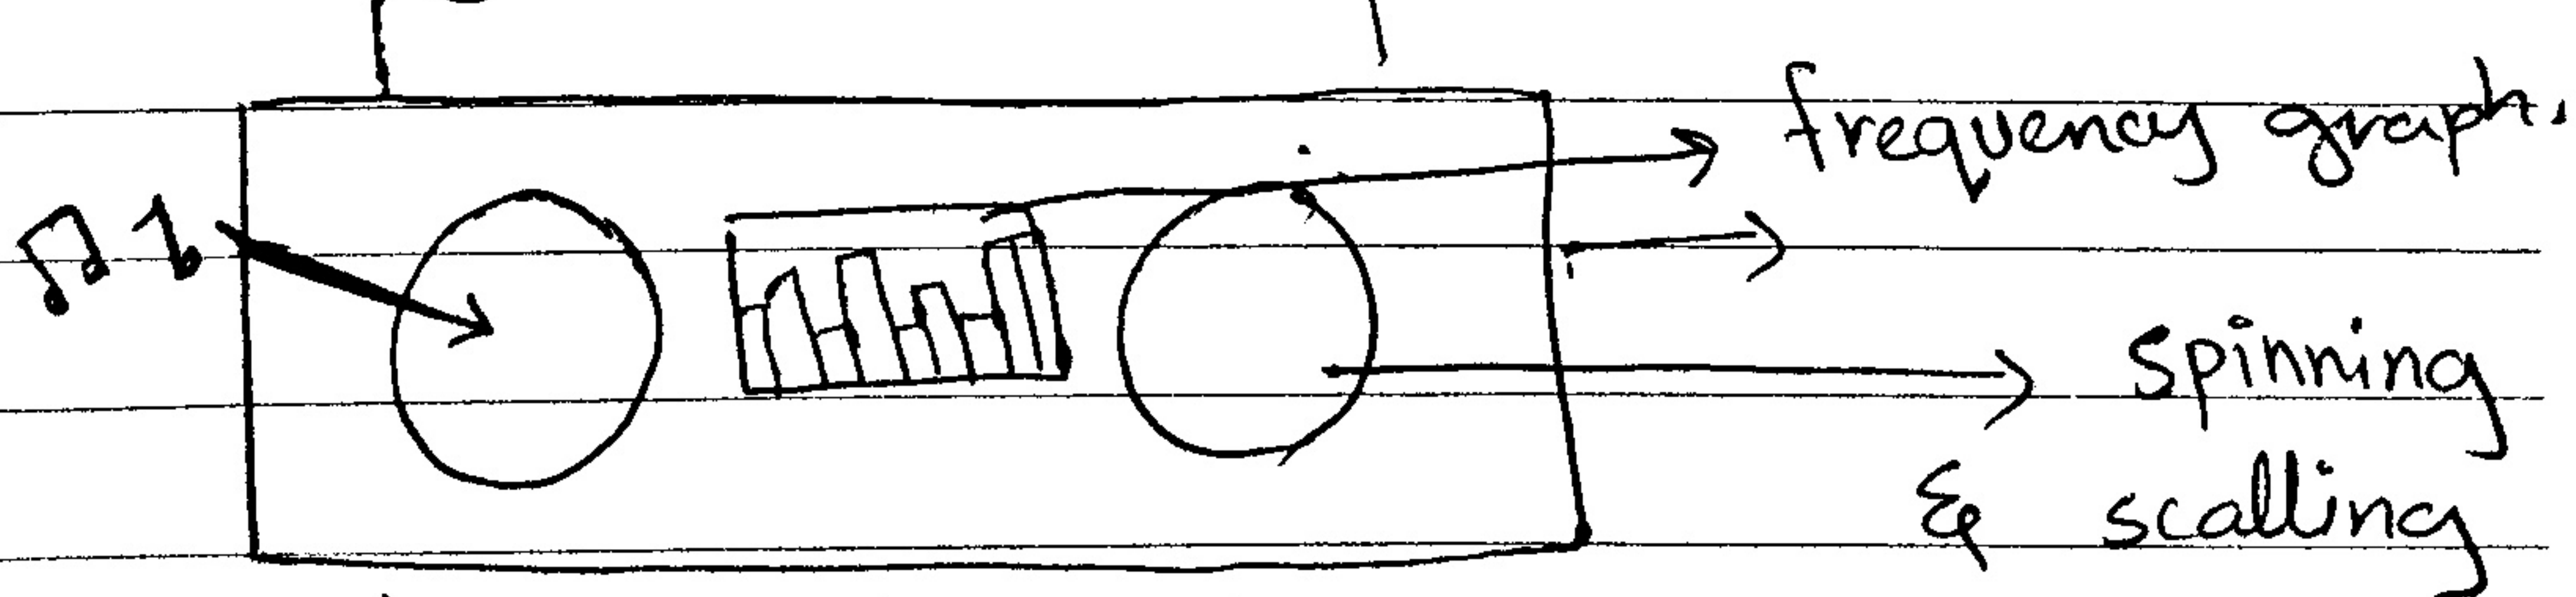

Background : Black

Profiles : 3 skull designs

Menu : Presenting 3 buttons to choose

Wave pattern : changes position & color on each option

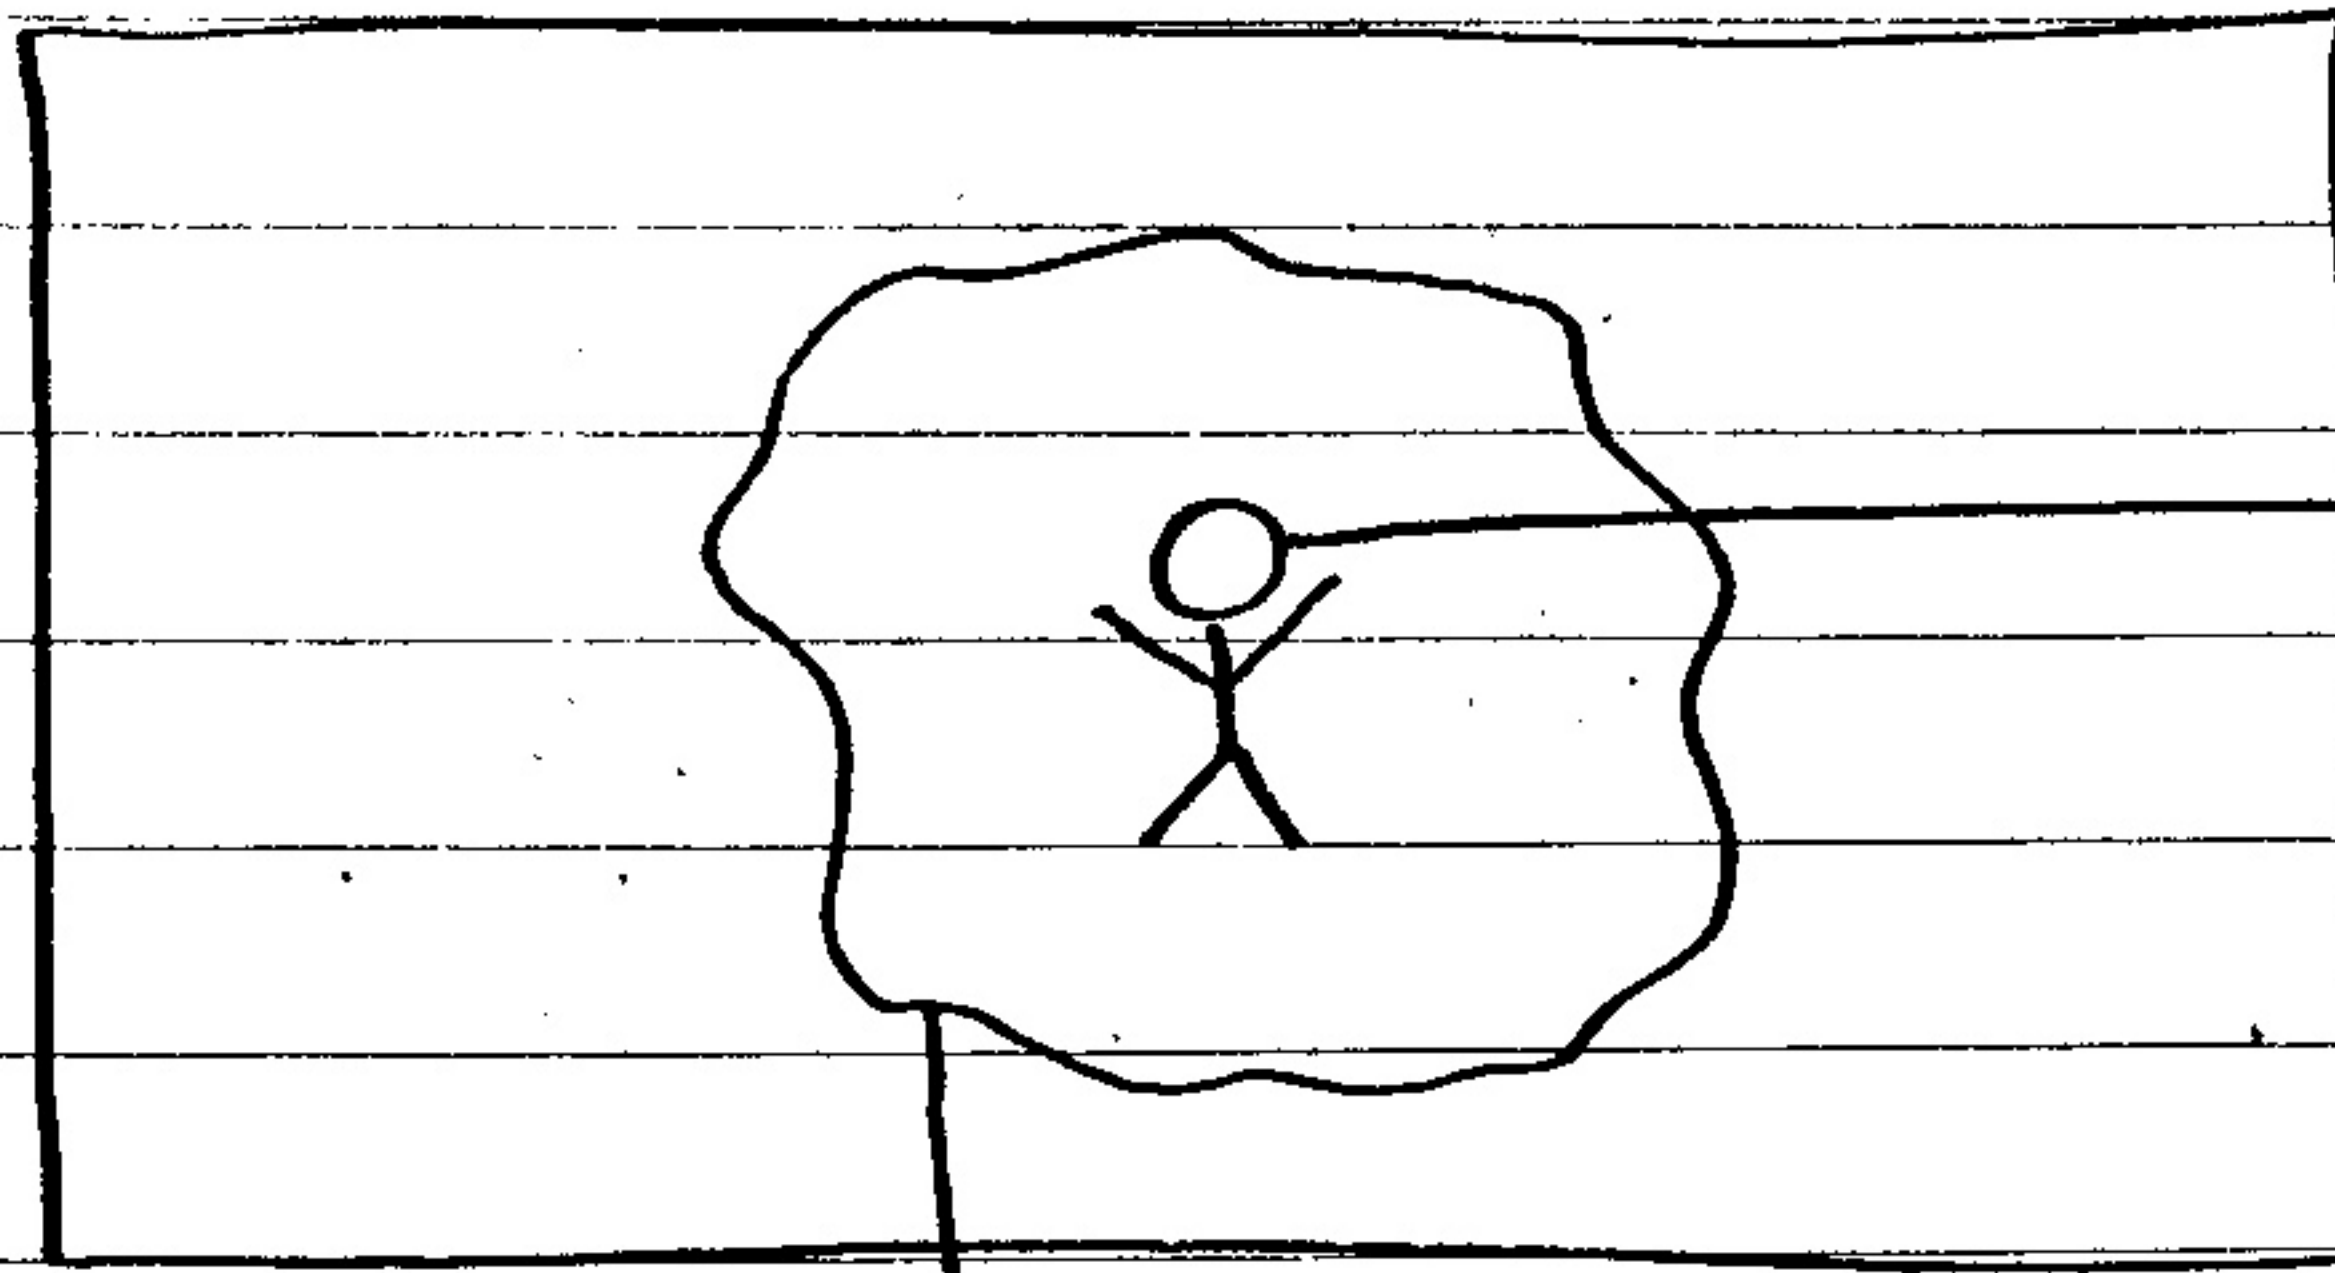

6. Vintage Retro Cassette

Music notes coming out of speaker speed inc & decrease

ITP-II Project Design

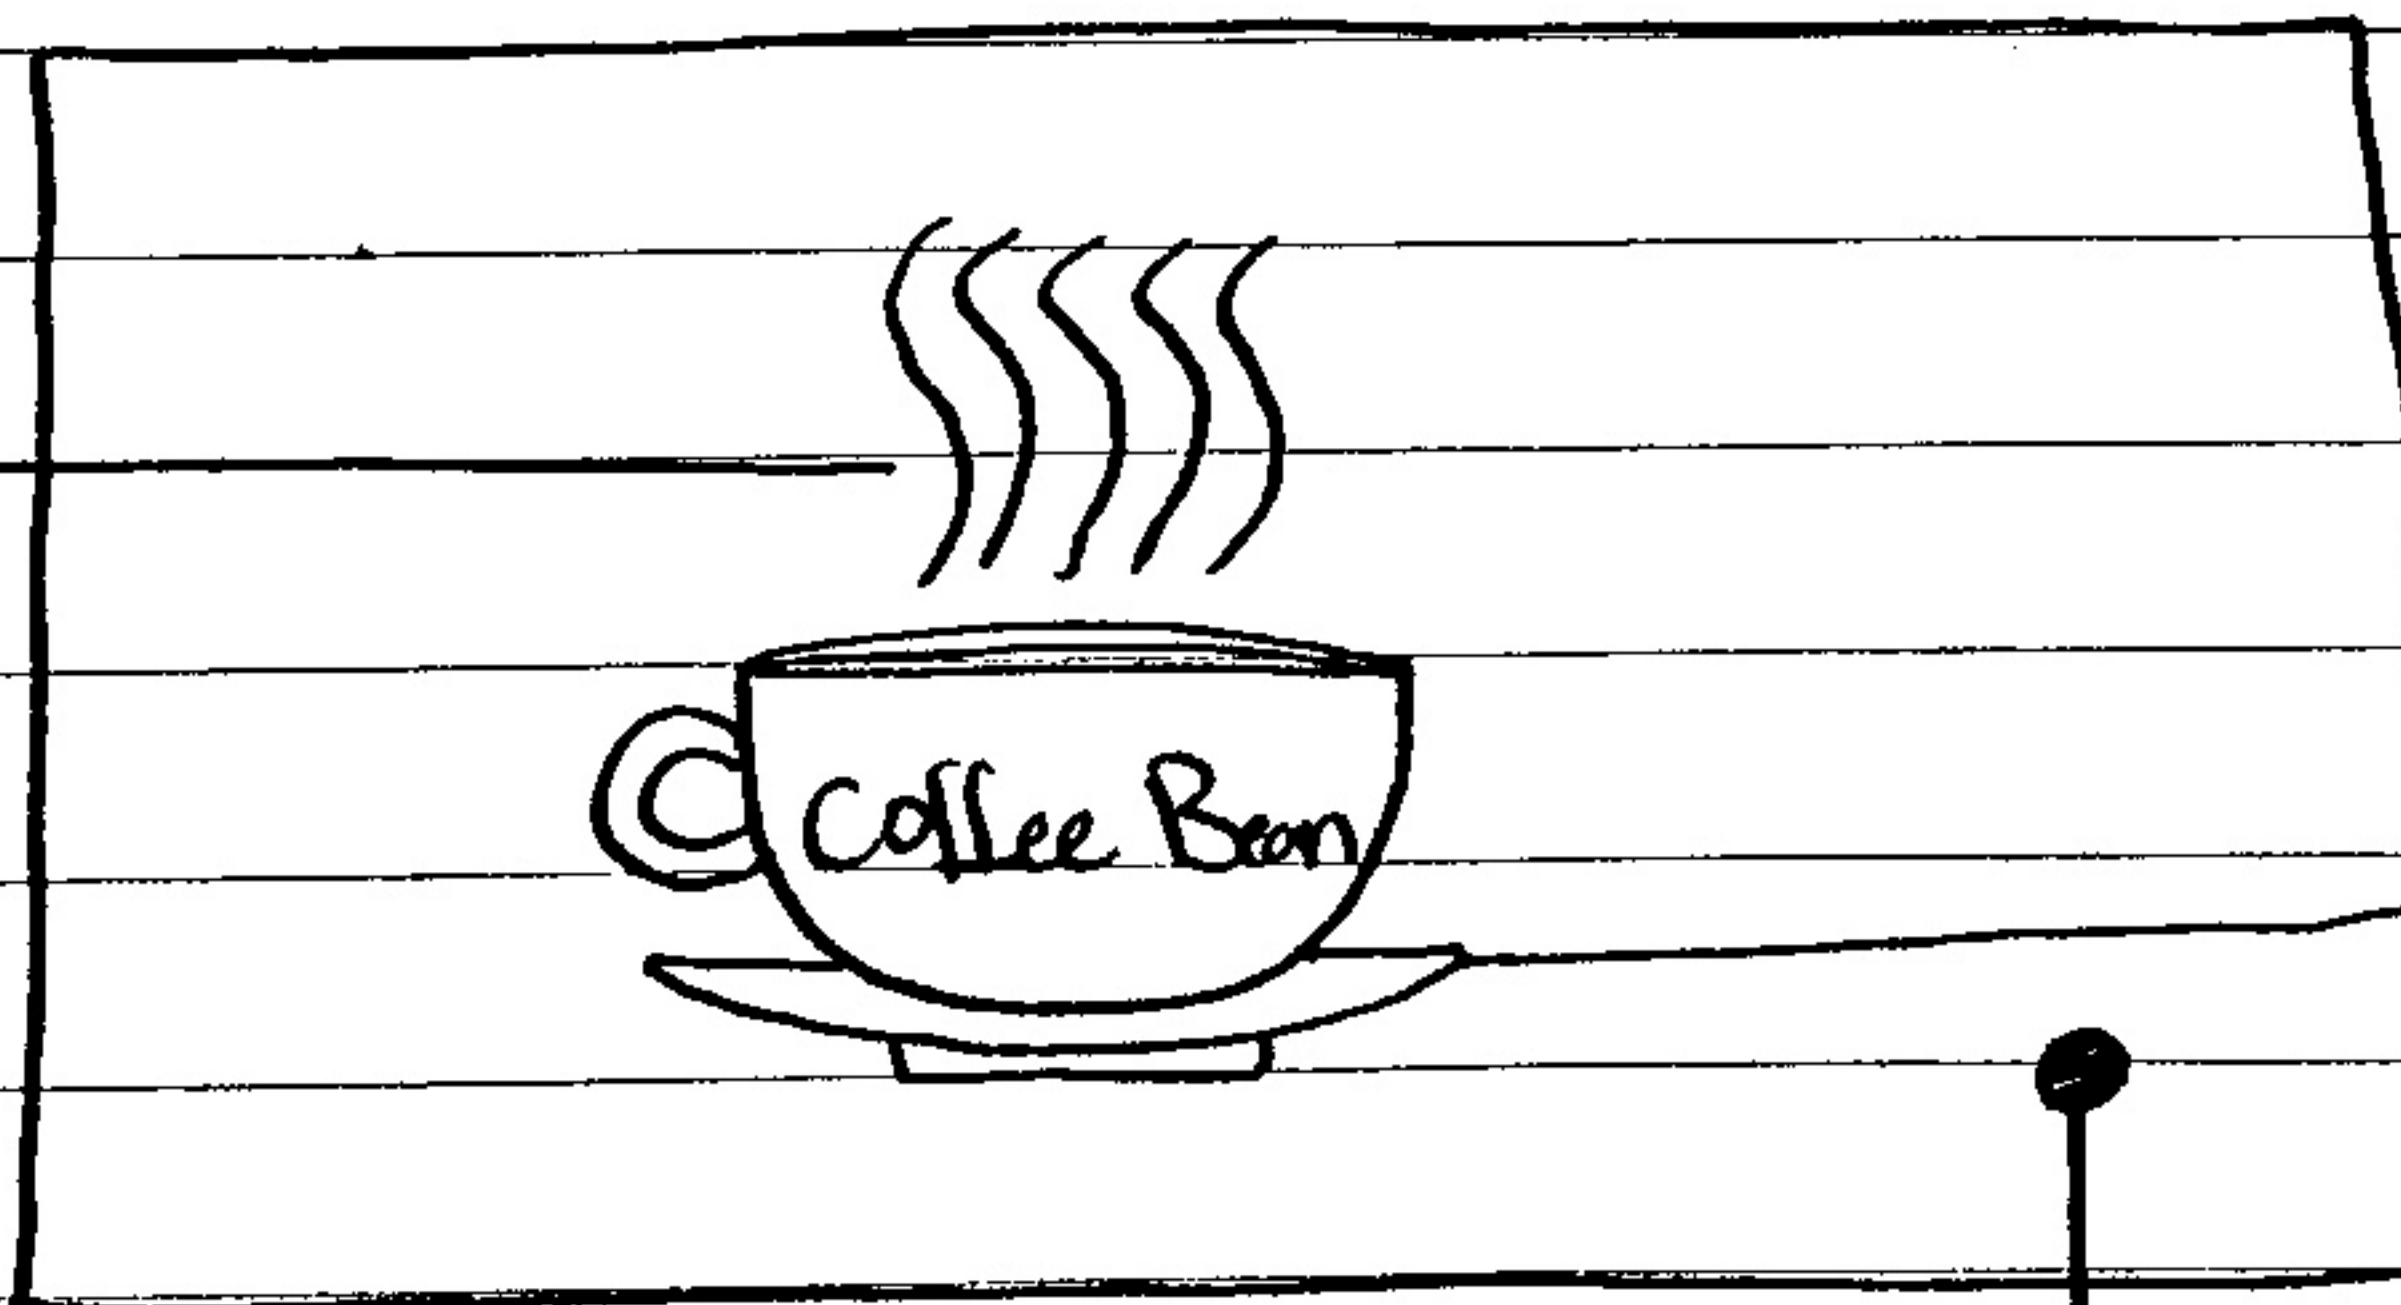

2.

5 char
profiles moving
on a invisible
circular path

Circular Music Representation while changing profiles.

3.

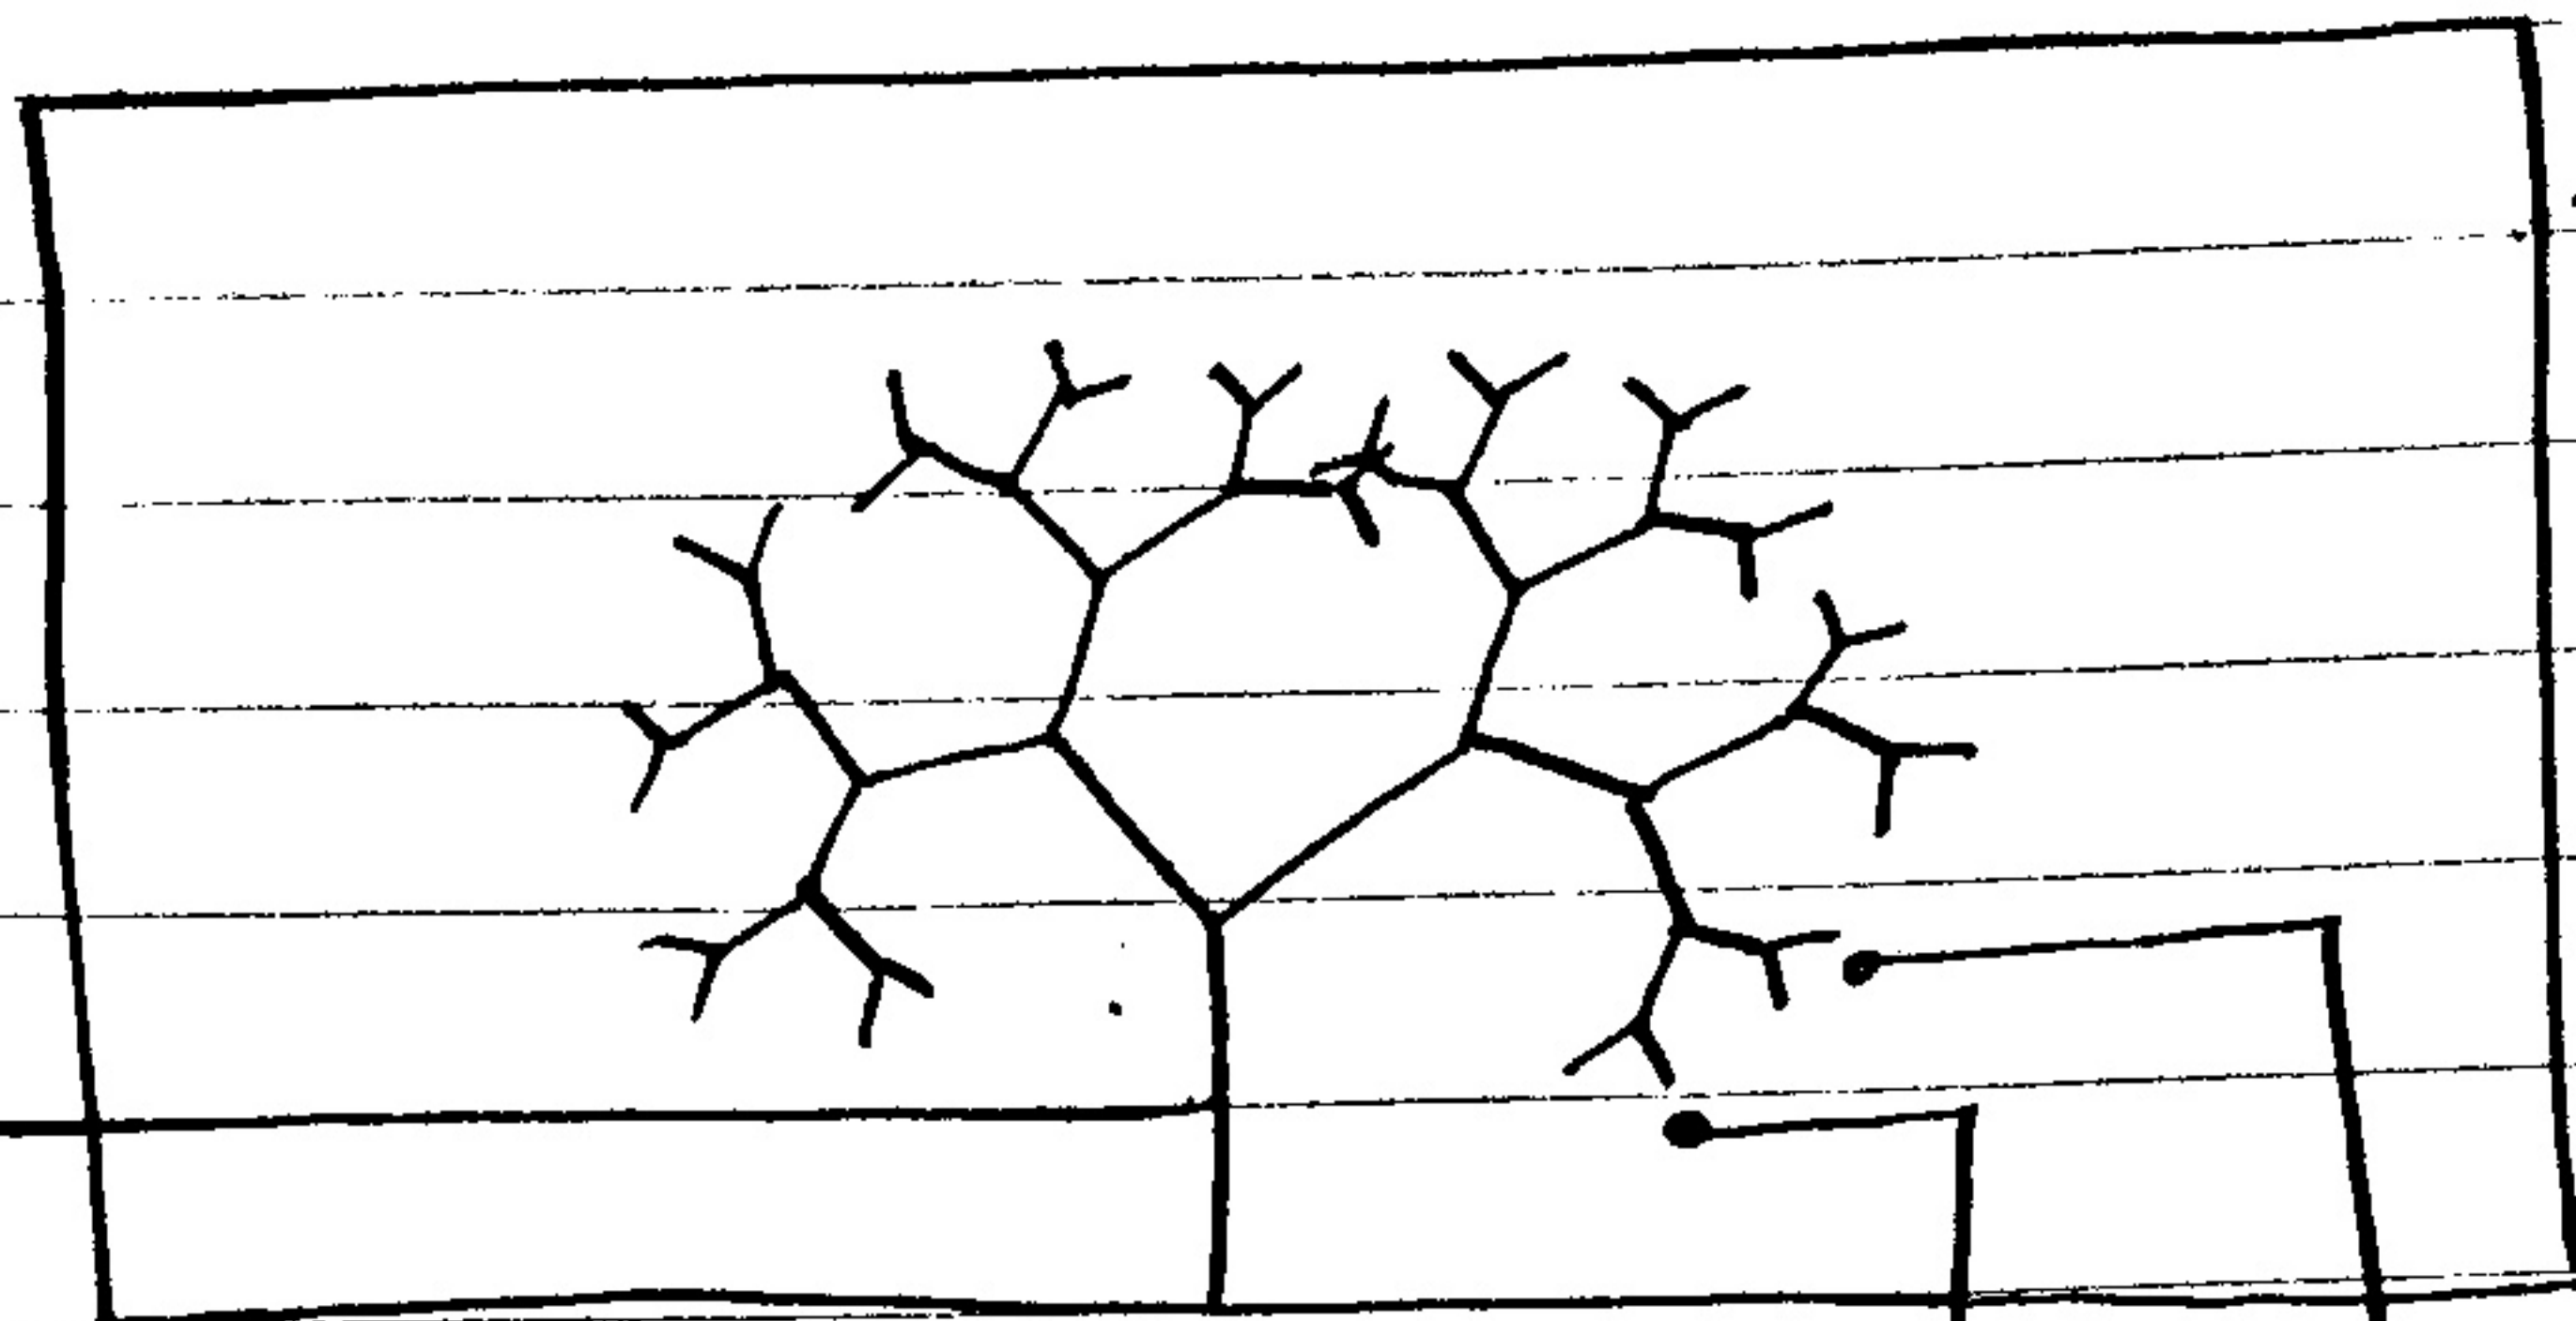

Sine Waves mapped on
music dipicking smoke

Bouncing
cup with
scaling
text.

Background consisting
of Images changing
one after another.

4.

Fractal Tree drawn using a Recursive Function.

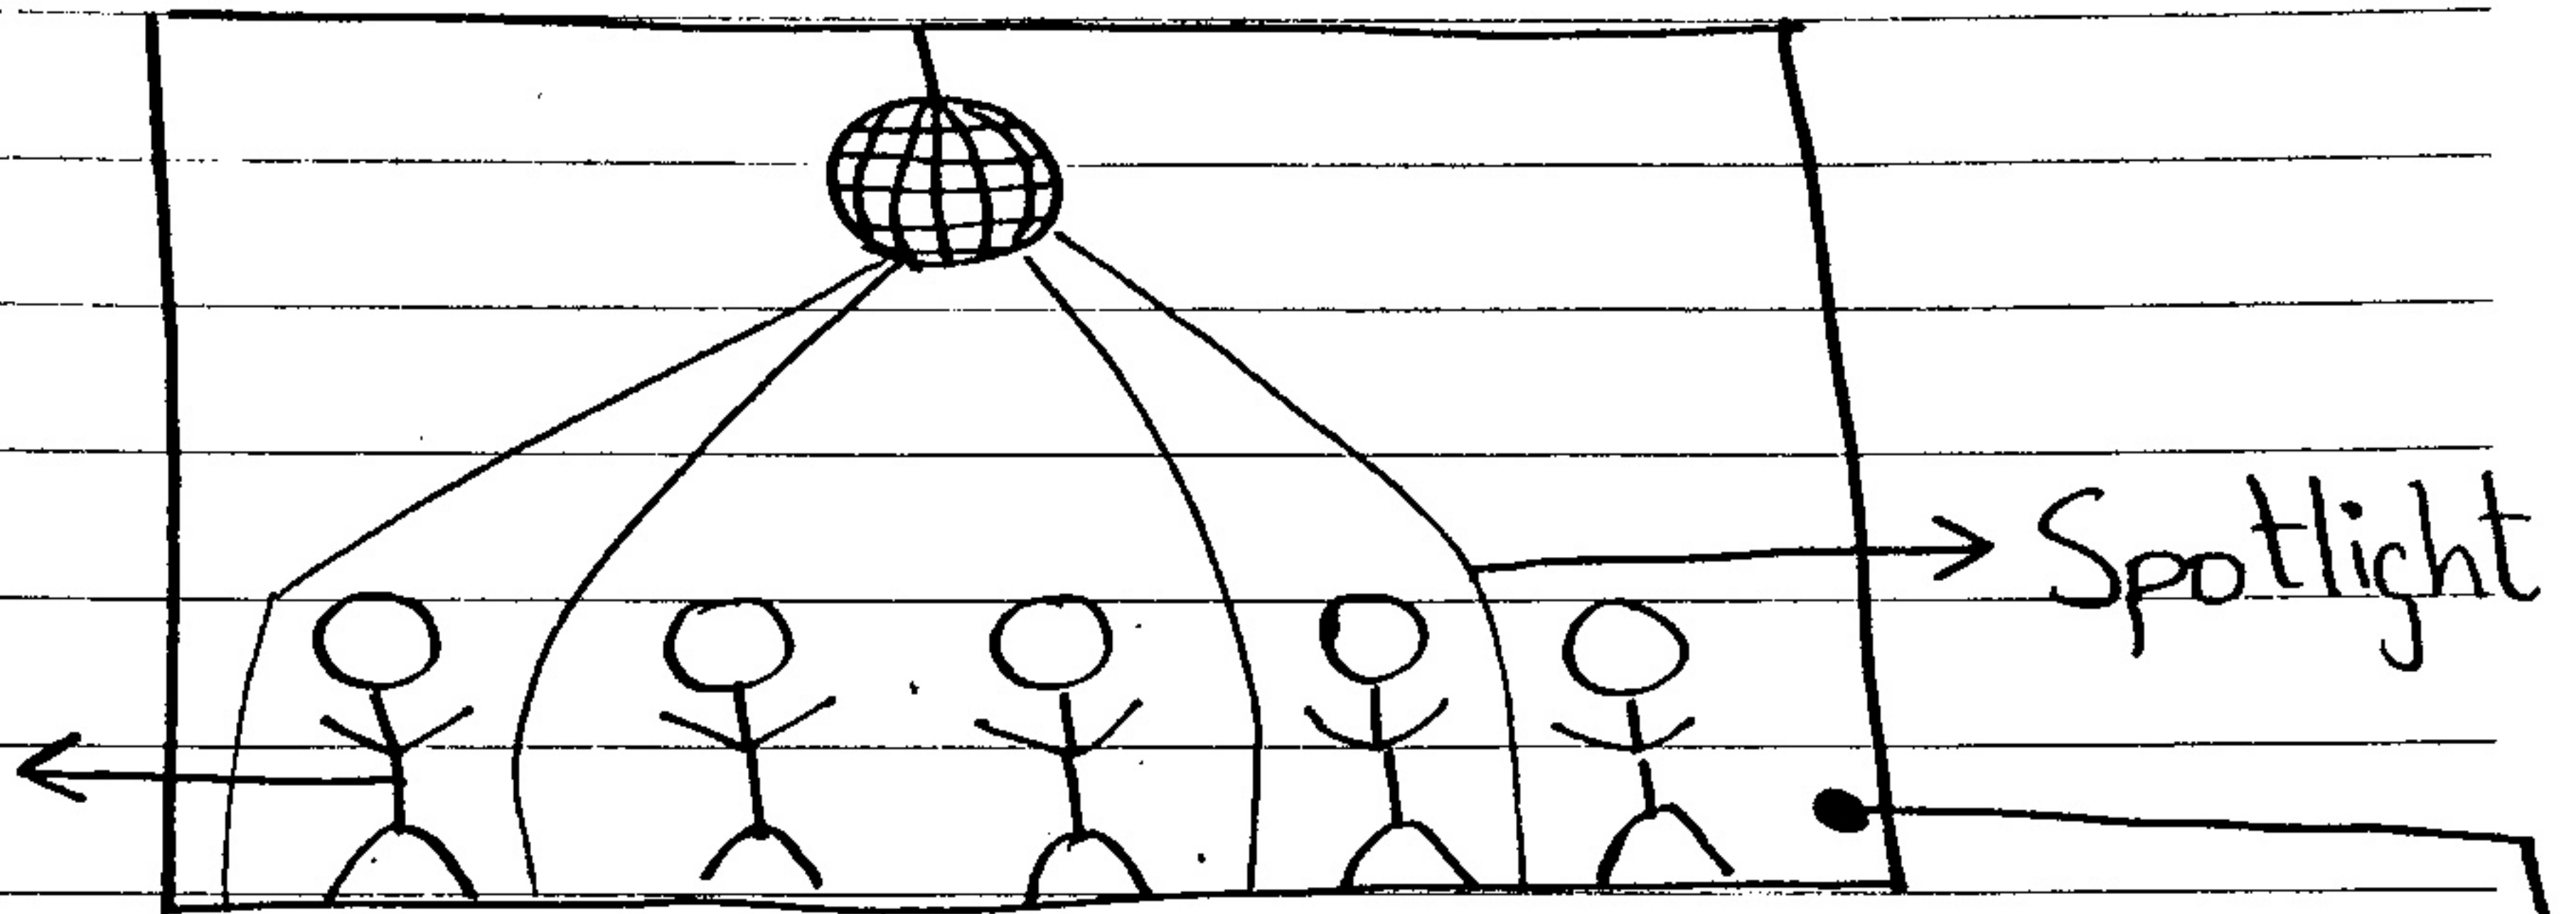

Changes size and branch angle mapped on music amplitude.

Further Development:

The branches will expand & contract with the music keeping all previous function like size and branch angle change too.

5.

characters
displaying
emotions

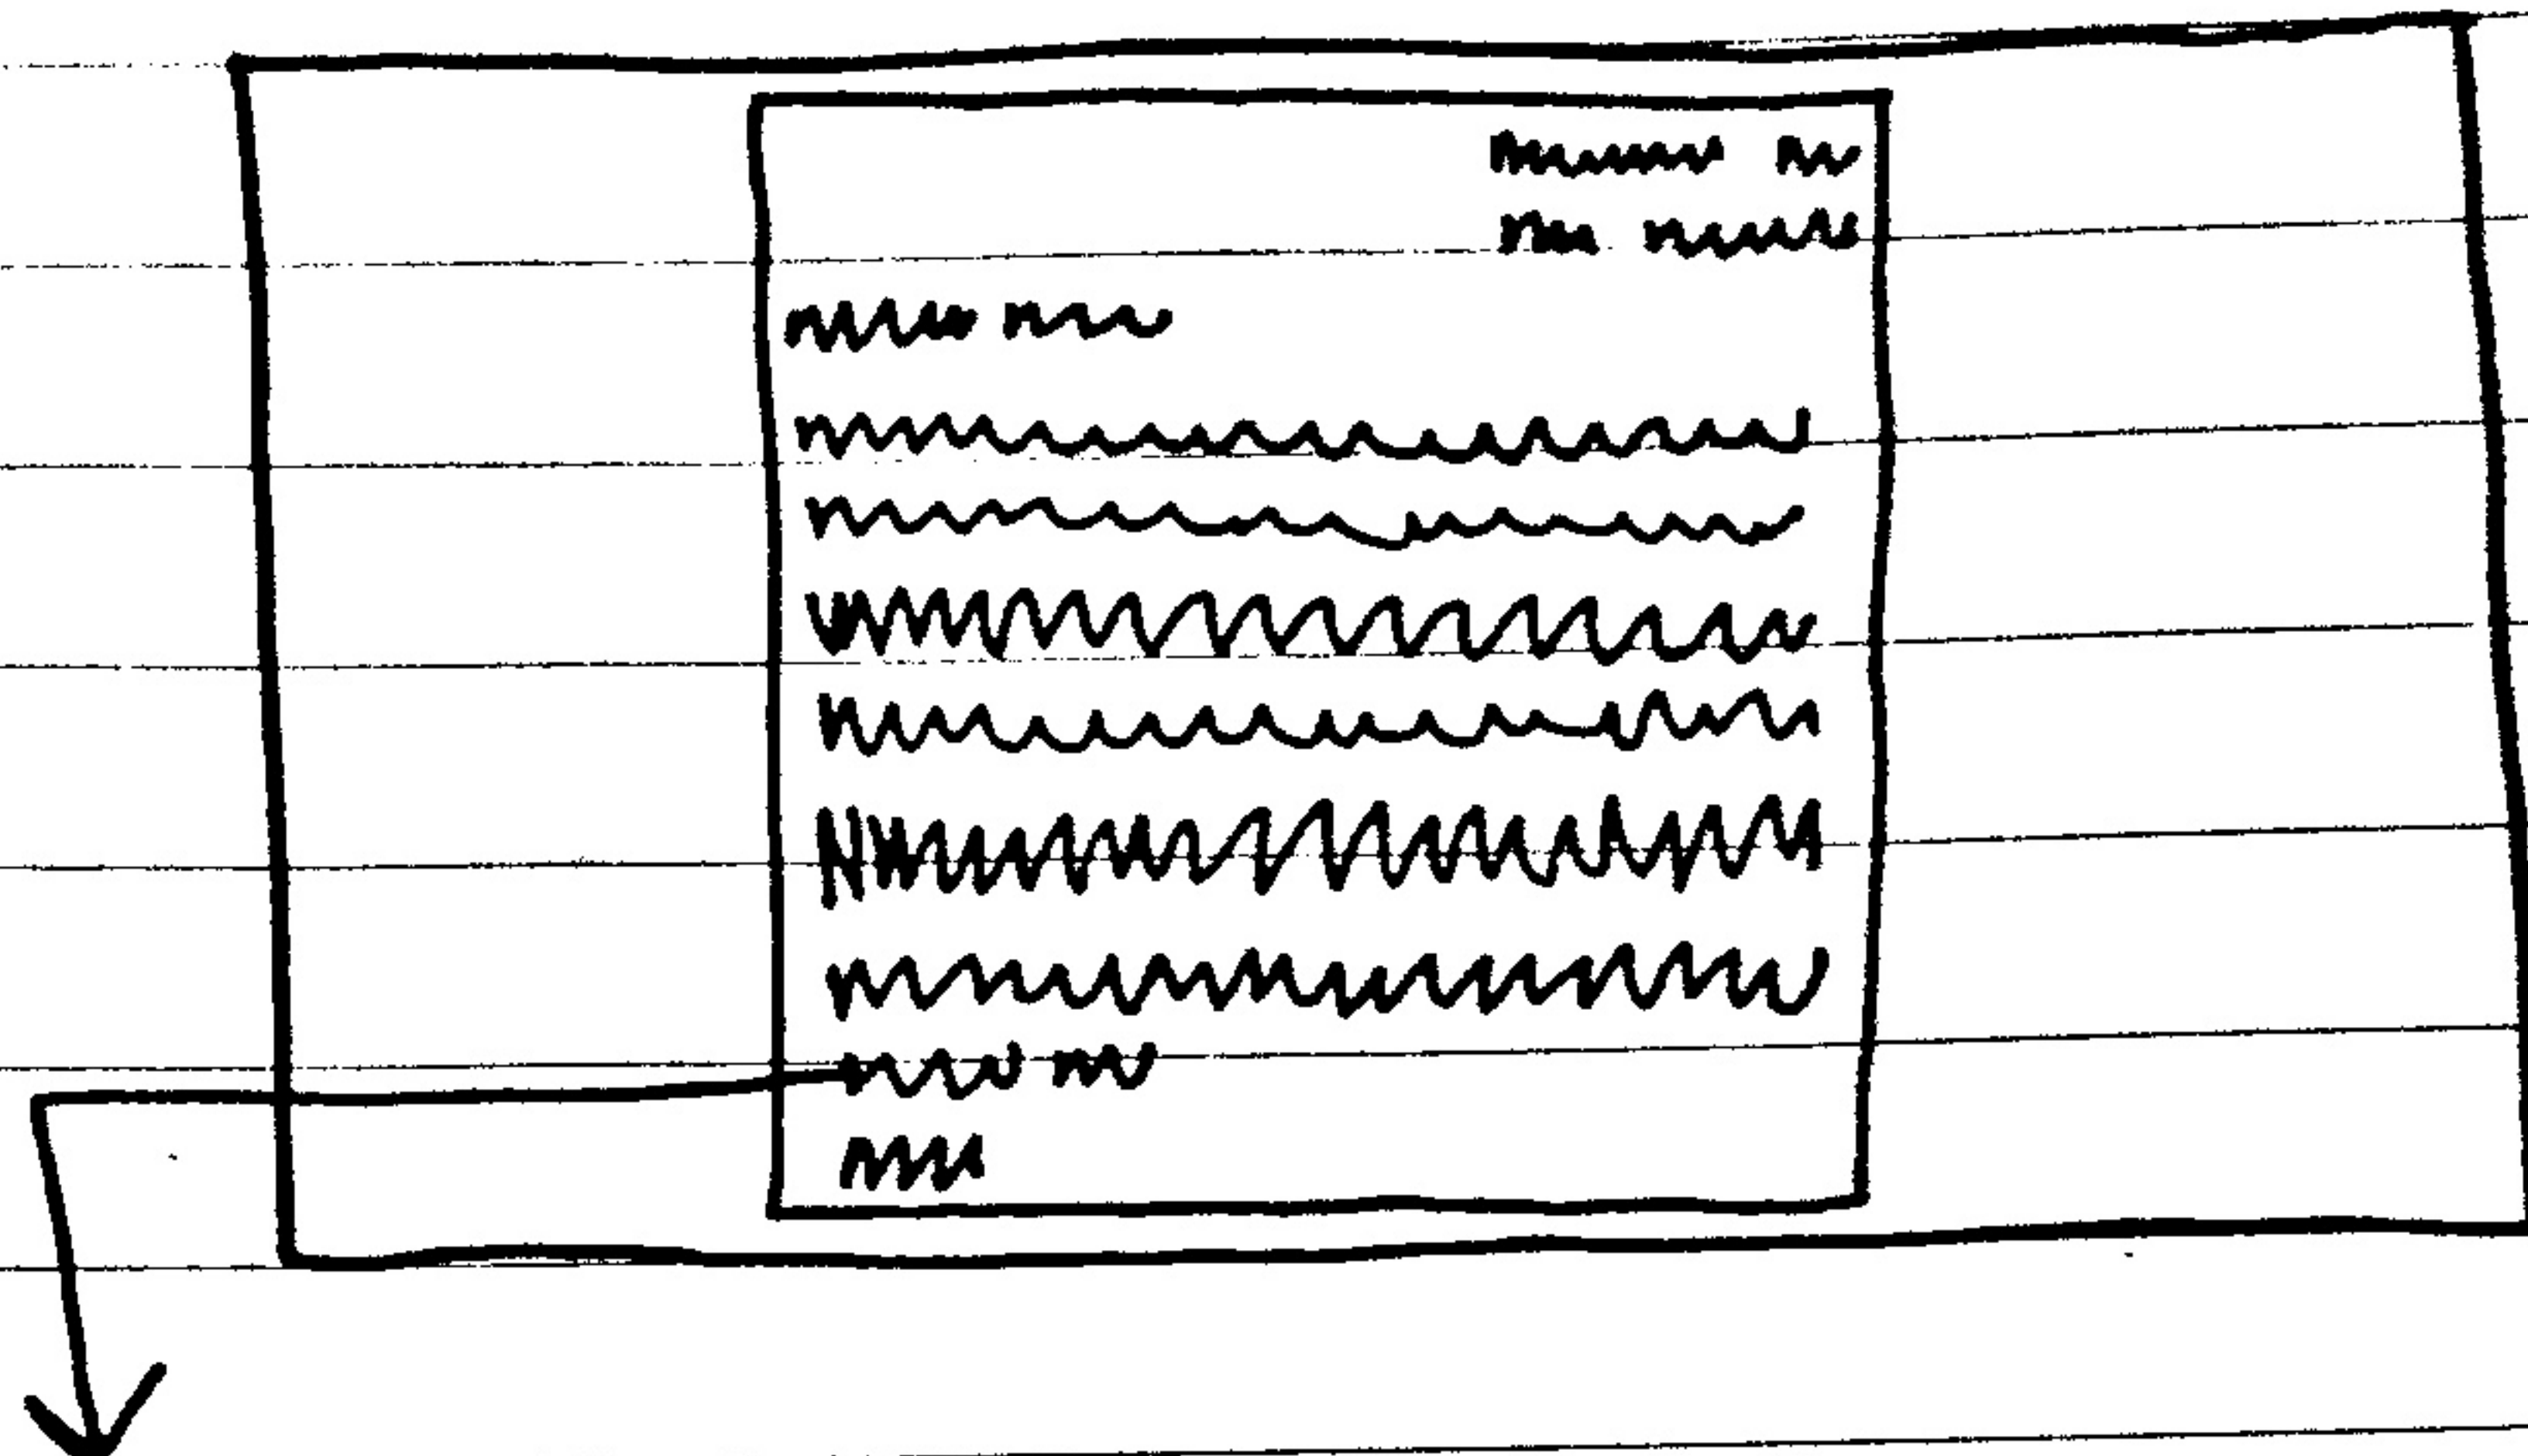

5 characters. Jumping according
to beat. spotlight goes on the
character when it jumps.
Gradient in spotlight.

Background changes according
to spotlight on character.

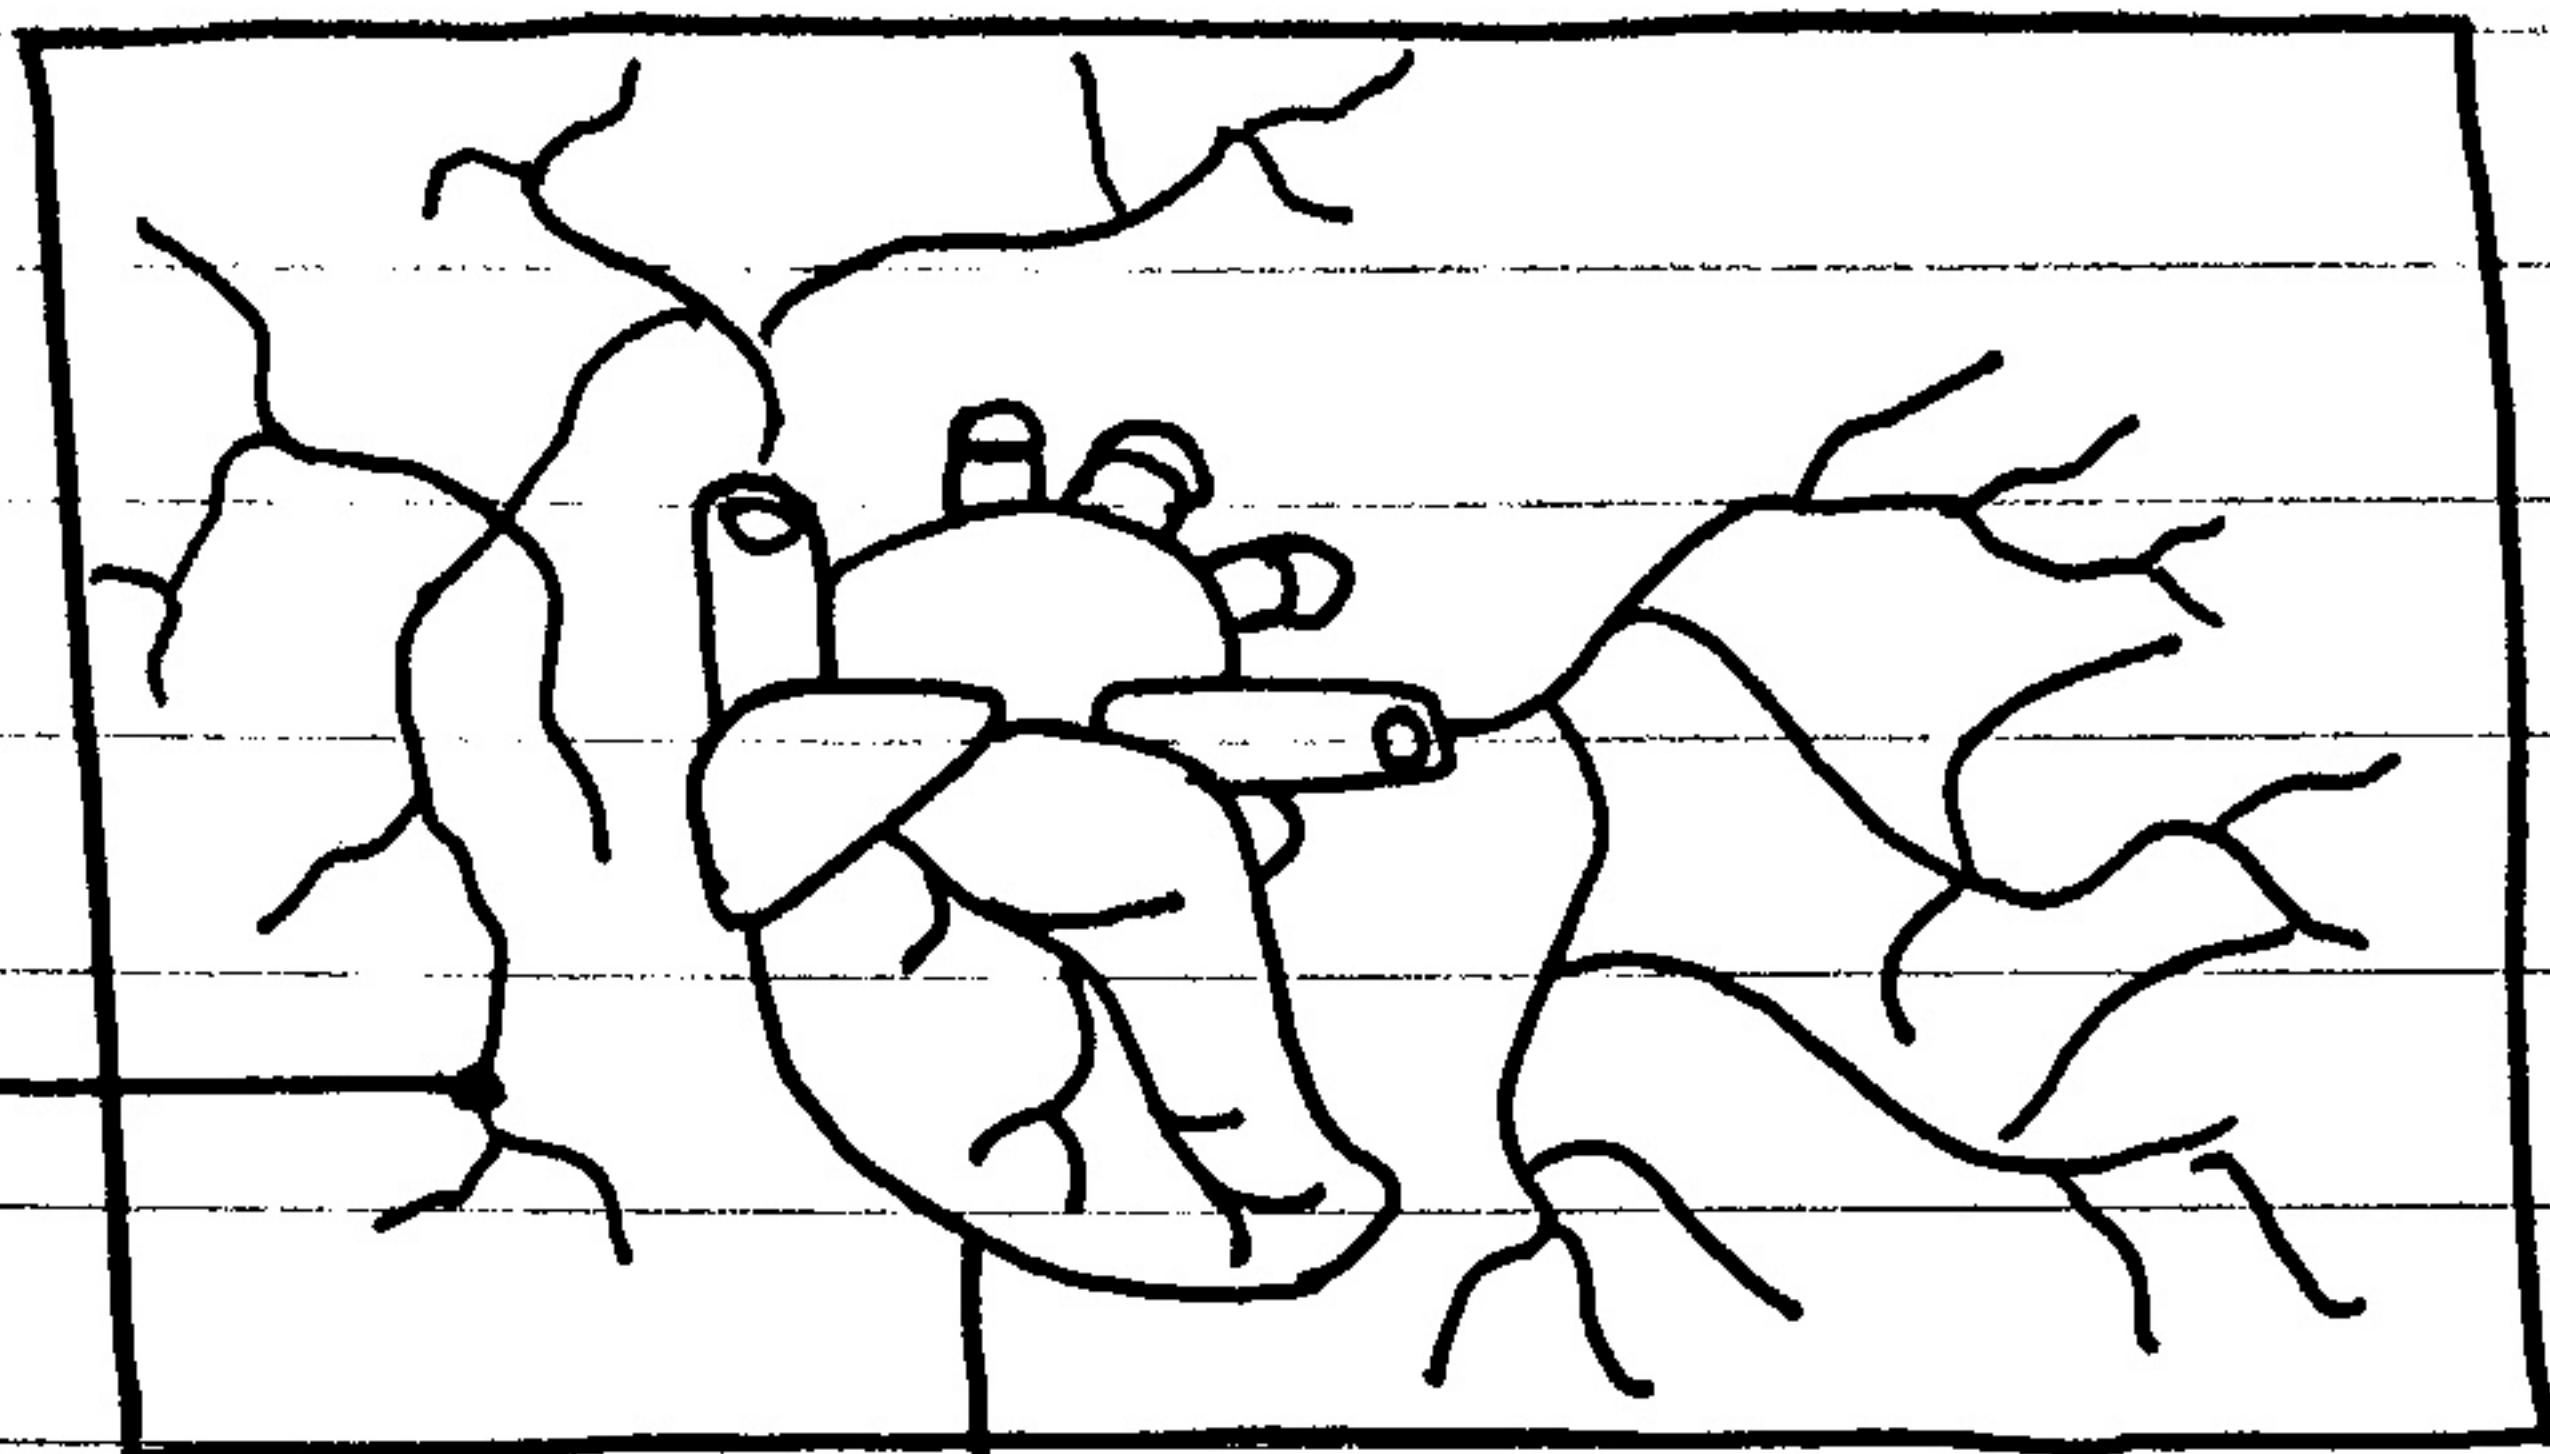

Day/Date

8.

Different frequency line waveforms
mapped on music.

7.

Human heart bouncing according to music amplitude values, depicting heartbeat.

→ Human Circulatory System veins expanding & contracting according to music.

→ The speed increases and decreases according to frequency values.
